Improving Health: MONTEREY COUNTY Dentist Offers a Better Night's Sleep
New American Board of Dental Sleep Medicine Diplomate, Dr. ADRIANA LALINDE, Treats Sleep Apnea, Snoring

MONTEREY COUNTY, CA, 8/8/2017 – Local dentist ADRIANA LALINDE is alerting helping Monterey county residents get a more restful night's sleep. Dr. LALINDE recently became a an American Board of Dental Sleep Medicine (AADSM) Diplomate. AADSM is the board for the leading national organization for dentists who treat snoring and obstructive sleep apnea with oral appliance therapy, an effective alternative treatment to the standard Continuous Positive Airway Pressure (CPAP) machines. Earning Diplomate status from the AADSM is a unique honor that recognizes special competency in dental sleep medicine.

"Sleeping with a CPAP machine, which includes a face mask, tubing and a constantly-running motor, can be difficult, and many MONTEREY COUNTY residents are unaware that an effective – and comfortable – alternative treatment is available," said Dr. LALINDE. "I'm committed to using my knowledge of dental sleep medicine to help meet my patient's snoring and sleep apnea, and provide MONTEREY COUNTY residents with a better night's rest."

While CPAP is the standard treatment for sleep apnea, the American Academy of Dental Sleep Medicine estimates up to 50 percent of sleep apnea patients do not comply with or tolerate CPAP. In contrast to a CPAP machine, oral appliances are a "mouth guard-like" device worn only during sleep to maintain an open, unobstructed airway. Patients like oral appliance therapy because it is comfortable, easy to wear, quiet, portable, and easy to care for.

"Oral appliance therapy often can equal CPAP in effectiveness and offer a higher patient compliance," said Dr. LALINDE. "I work with my patients, and their sleep physicians, to identify the right oral appliance device, custom fit devices to each patient and make any needed adjustments to ensure an open airway and a more restful sleep."

Dr. ADRIANA LALINDE DDS is located at 546 ABBOTT ST, SALINAS, CA 93901. Patients with loud snoring and diagnosed sleep apnea suffering with difficulty tolerating CPAP should contact Dr. LALINDE at 831-481-2992 to schedule a consultation appointment. Dr. LALINDE works closely with sleep physicians to treat snoring and obstructive sleep apnea.

About The American Academy of Dental Sleep Medicine
 The American Academy of Dental Sleep Medicine (AADSM) is the only non-profit national professional society dedicated exclusively to the practice of dental sleep medicine. The AADSM provides educational resources for dentists and promotes the use of oral appliance therapy for the treatment of obstructive sleep apnea and sleep-disordered breathing. Established in 1991, the AADSM has more than 2,000 member dentists worldwide. Visit www.aadsm.org or call the national office at (800) 721-9792 for more
